

April

Spring Break 4/2 – 4/6

10 Field Trip to Denny's Pet World
Please meet at Denny's at 1:10.

12 Bees

A Honey of a class today. Did you know that the bee does a dance to communicate with each other? That they have poor eyesight and that they really do not want to sting you? That's the buzzzzz anyways.

14 Butterflies

They grace the garden with their beauty and they help us too. Today we will learn about what it might be like to be a butterfly.

17 Insects

This is a very buggy class. We will learn about anatomy, habitats and how they help or hurt our environment

19 Amphibians

Life cycle, strange habits, camouflage -today is all about the amphibian.

24 Reptiles

Habitats, food sources, extreme behavior- today is all about reptiles.

26 Taking Care of Mother Earth

Today we will recycle and reuse and think about how we take care of our Mother Earth.

Science: Tuesday & Thursday 12:45-2:45
Mrs. Dahlin & Mrs.Kerrick
